Customer Bookings with Date Range

Last Modified on 07/30/2019 11:04 am EDT

/* This query will show a count of all given customer bookings, current and archived, that have a warehouse out date within the date range provided */

```sql
DECLARE @StartDate AS VARCHAR(20)
DECLARE @EndDate AS VARCHAR(20)
DECLARE @CustCode AS VARCHAR(8)

SET @StartDate = '2019-07-01'
SET @EndDate = '2019-07-31'
SET @CustCode = 'WATBUS'

SELECT c.customer_code     AS [Customer Code],
     v.organizationv6    AS [Company Name],
     CASE
       WHEN V.bookingprogressstatus = 0 THEN 'Quote'
       WHEN V.bookingprogressstatus = 1 THEN 'Light Pencil'
       WHEN V.bookingprogressstatus = 2 THEN 'Heavy Pencil'
       WHEN V.bookingprogressstatus = 3 THEN 'Confirmed'
       ELSE 'Cancelled'
     END                AS [Status],
     Count(v.booking_no) AS [# Bookings]
FROM   vwbookandhist v
     LEFT OUTER JOIN tblcust c
           ON c.id = v.custid
WHERE  ( v.ddate >= @StartDate
     AND v.ddate <= @EndDate )
     AND c.customer_code = @CustCode
GROUP  BY c.customer_code,
       v.organizationv6,
       v.bookingprogressstatus
```
